

Morality and the Covid-19 Vaccine and the Vatican.

Hello Pilgrims, Christmas is coming up, the birth of Hope to a fallen world. Recently, there has been quite a stir about vaccines and aborted tissue, and it may be a topic of discussion at Family gatherings. Enclosed is the actual document from the Vatican that you can read for yourself. It notes that there were two aborted fetuses from the 1960's that had cell lines that were used in some part of Covid 19 Vaccine development process.

In our ten second sound bite culture, I am sure the Media, "accuser of our brother," is going to say, The Church is promoting abortions to make vaccines. **This is NOT the case.** Look at the details of what the Vatican is actually saying.

Example: Here's an example that may help you understand the Vatican's stance: Imagine that in the 1960's when JFK was brutally killed and let's say, many scientist and researchers analyzed tissues regarding JFK, let's say some of that research and even those cells are used 50 to 60 years later to make vaccines that actually could save many lives. **Because JFK was brutally murdered, is it morally Ok to use this vaccine?**

This is the way I understand what the Church is saying: "it is morally licit **ONLY** if you are **not** promoting killing someone else to make more cells **AND** if the researchers were very remote and took no part in the killings or even consented to it **AND** if there are no irreproachable vaccines available **AND** if the vaccine can save many lives."

The corrupt news sources will skip some of the "ONLY" and "AND" conditions to cause confusion and division.

Please read the article from the Vatican for yourself at https://zenit.org/2020/12/21/just-in-vatican-publishes-note-on-morality-of-covid-19-vaccines/?utm_medium=email&utm_campaign=JUST%20IN%20Vatican%20Publishes%20Note%20on%20Morality%20of%20Using%20COVID-19%20Vaccines%201608568782%20ZNP&utm_content=JUST%20IN%20Vatican%20Publishes%20Note%20on%20Morality%20of%20Using%20COVID-19%20Vaccines%201608568782%20ZNP+CID_79e821d22782a7028fbb579f22da6abd&utm_source=Editions&utm_term=JUST%20IN%20Vatican%20Publishes%20Note%20on%20Morality%20of%20Using%20COVID-19%20Vaccines

Other points include:

1. "We do not intend to judge the safety and efficacy of these vaccines, although ethically relevant and necessary, as this evaluation is the responsibility of biomedical researchers and drug agencies."
2. "Practical reason makes evident that vaccination is not, as a rule, a moral obligation and that, therefore, it must be voluntary."

I like Robert Kennedy Junior's website: **Children Health Defense** because they provide good scientific information so you can decide for yourself if the vaccines are safe. Please see:
